Research Experience

Northwind Analytics

Remote

Machine Learning Engineer

Mar. 2024 – Present

- Own the training and evaluation pipeline for the demand forecasting models behind 40+ client dashboards (Python, PyTorch, Airflow).
- Designed the offline evaluation protocol, with time-based splits and bootstrap confidence intervals, now required for every model release.
- Ran ablations on feature sets and model sizes and wrote the internal reports used to choose the production architecture.

State University

City, Country

Research Assistant, Data Science Lab

Sep. 2021 – Feb. 2024

- Wrote a Python library for cleaning and aligning sensor time series, later adopted by three groups in the department.
- Co-authored a workshop paper on uncertainty estimation for small-data regression (2023).
- Taught weekly lab sessions for an undergraduate statistics course of 80 students.

Education

State University

City, Country

M.Sc. in Computer Science

Sep. 2022 – Jul. 2024

- Thesis: *Calibrated uncertainty for small-data regression*. Final grade 9.1/10.
- Relevant coursework:** machine learning, optimisation, distributed systems, Bayesian statistics.

Technical University

City, Country

B.Sc. in Mathematics

Sep. 2018 – Jun. 2022

Graduated with honours; minor in computer science.

Projects & Awards

tidy-series: time-series cleaning toolkit

Open-source Python library

2023 – Present

- Maintain a library for resampling, gap filling and outlier removal in irregular time series; 300+ GitHub stars, 12 outside contributors.
- Benchmarked imputation methods on six public datasets; results and scripts are in the repository.

City Hackathon

City, Country

1st place out of 40 teams

Nov. 2023

Built a prototype in 36 hours that matches surplus food from restaurants with local shelters.

Skills

Programming

Python, SQL, C++, Bash

ML & data

PyTorch, scikit-learn, pandas, NumPy, Spark

Infrastructure

Docker, Airflow, AWS, Git, Linux

Methods

Bayesian inference, experimental design, bootstrap, ablation studies

Languages

English (native), Spanish (fluent), German (basic)
